## ESS Round 8 - Italy is back in the European Social Survey

Rome may 31, 2018 - We are delighted to announce that the second edition of data and documentation for ESS Round 8 is now available from the ESS website [www.europeansocialsurvey.org](http://www.europeansocialsurvey.org). **This occasion is particularly important for Italy that returns to be part of the survey after a period of absence.**

After being one of the first countries to join ESS in 2002, Italy is back as a full member of the ESS ERIC consortium thanks to the strategic choice of the National Institute for Public Policy Analysis (INAPP) which decided to finance the project for both Round 8 (2017) and Round 9 (2018-19), currently under preparation.

The ESS survey in Italy is developed by INAPP, in collaboration with the Department of Social and Political Sciences of the University of Milan. For its scientific rigor and its social relevance, the ESS Survey is included in the current National Statistical Program (PSN) of SISTAN (Italian National Statistical System).

ESS8 Italian data are available for registered users on the ESS Italy – documents and data files pages: [www.europeansocialsurvey.org/data/country.html?c=italy](http://www.europeansocialsurvey.org/data/country.html?c=italy)

The integrated ESS Round 8 file, including the data for Italy and other 22 countries, is available on the ESS8 - 2016 Data Download pages: <http://www.europeansocialsurvey.org/data/>

More information on the Italian participation to ESS ERIC available at: [www.europeansocialsurvey.org/about/country/italy/](http://www.europeansocialsurvey.org/about/country/italy/)
